## PRESS RELEASE

### STIAN SHIVER | MOVING LIGHT

Free download single including 6 tracks available now on the internet

The digital single MOVING LIGHT is now to be released as the precursor of the first solo album by the PORTASH singer STIAN SHIVER. What's more, fans of electro pop music can enjoy different versions of both songs, with WATCH YOUR HEART on the B-side. The complete single with its 6 tracks is available as free download on [www.stianshiver.com](http://www.stianshiver.com). MOVING LIGHT points the way to the new debut album HIBERNATION, due for release in May: sparkling pearls of electro pop on a strong foundation of beats and basses, interspersed with epic melodies.

### STIAN SHIVER | Background

STIAN SHIVER founded the Synth-Pop-Band "Strange Tears" in Dresden in 1996, for four years bringing out remarkable releases and staging outstanding concerts. After the band's break-up in 2000 he worked on many projects in collaboration with musicians from among his friends and former band mates. With Dan Stard he founded the electro pop band PORTASH at the end of 2004 [[www.portash.com](http://www.portash.com)], which mixed synthetic sounds with rocking guitars and electro beats on their debut album "Framed Lives, " released in 2007. With this album they enraptured critics and fans alike (Orkus: "...emotional intensity, a splendid, expressive voice, an accomplished oeuvre you want to listen to for hours"). His first solo album is due for release in 2010.
